

Overdose Events Spike During **Cheque Week** (the days around income assistance day)

There was a record-breaking spike in calls to 9-1-1 for drug poisoning during cheque week in August 2025.

The current drug supply is unpredictable with more carfentanil found in it recently.

Use harm reduction practices to reduce risk.

Test your
drugs

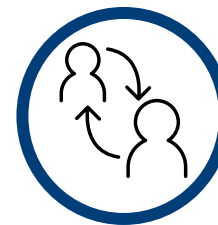

Check drug
alerts

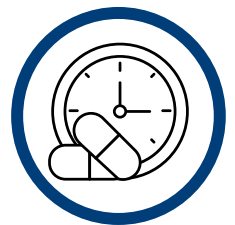

Have naloxone
and know how to
use it

Use with
someone
you trust

Take turns using
so you can help
each other

Start low,
go slow
